

Hooray, dahlia season is almost here!

Do you still need tubers? Or maybe plants? Though many suppliers are sold out and some local dahlia society sales are already past, there are some sales yet to be held. See what's going on in your area - check out the ADS affiliated local societies

[list of tuber and plant sales](#).

Or maybe you have your tubers and need advice on preparing your garden, planting, and taking care of your plants? In that case, may we recommend [Dahlia University](#)?

And finally, may we recommend membership in the ADS and a local society?

Membership in ADS includes quarterly issues of the "Bulletin of the American Dahlia Society". This publication is full of information about growing dahlias, plus members' perspectives and observations about our favorite flower. An ADS membership also includes an annual copy of the Classification and Handbook of Dahlias. [Learn about joining the ADS](#).

Membership in a local society will put you in touch with growers in your area. In addition to forming new friendships, you will learn growing techniques specific to your locale and have the opportunity to participate in fun and informative events centered around growing and showing dahlias. See information about [ADS affiliated societies in North America](#).

Here's to your best dahlia growing season ever!
