

Classification Changes from the 2014 Classification Meeting in Tacoma

At the 2014 Annual Classification Meeting, which was held in Tacoma Washington, the following changes were adopted:

1. Amend the definition of blend to: Two or more merging colors on either the face or reverse of the ray floret OR two or more contrasting colors on either the face or reverse of the ray floret.
2. Add a 10th color chip to the white class color chart to be called White zero. White zero will be the border (background) of the white chip color page.
