

The American Dahlia Society

FOR IMMEDIATE RELEASE

Les Connell Medal Awarded

The American Dahlia Society (ADS) has announced that the 2022 winner of the Les Connell Medal is Clearview Cameron, a stunning medium sized, white and lavender, incurve cactus variety (B-IC-Dark Blend).

The Connell Medal is awarded to the cultivar winning the most total awards at ADS sanctioned shows throughout the United States and Canada in the five years following introduction.

Clearview Cameron was developed by highly successful hybridizers Richard and Danielle Parshall of Snohomish, Washington. This is the second consecutive Connell Medal win for the Parshalls, having won in 2021 for Clearview Butterscotch.
