

# Judging Program

ADS Accreditation Chair

Bob Schroeder

It's that time of the year again when the American Dahlia Society judges close out another year. We're thrilled to announce that Fifty-three individuals have joined our judging program as candidates this year. We've also had twenty-six members advance to the accredited judge's level, ten achieve the top level of judging, the senior judge, and seven members have chosen to move to the Honorary Senior Judging status.

We've awarded new candidates, advancing accredited and senior judges with judging pins and certificates to recognize their accomplishments. We hope that these pins will be a source of pride and serve as a reminder of the long hours of hard work and dedication it took to reach these judging levels. We want to take a moment to congratulate and thank all the candidates who entered the judging program or have advanced in the program. For those who have been unable to continue with the active judging program and have chosen to continue as honorary senior judges, we appreciate all the time and effort you have put into the judging program.
